

EXPERIENCE

GEP Worldwide

Aug 2023 – Present

Software Engineer

Hyderabad, Telangana

- Bug Resolution:** Identify, troubleshoot, and execute bug fixes, safeguarding system integrity and reliability.
- Solution Configuration:** Implement and configure solutions to adapt to the ever-evolving needs of clients.
- Production Issue Resolution:** Promptly address and resolve production issues, minimizing downtime and ensuring uninterrupted operations.
- Interface Management:** Develop and optimize interfaces in alignment with client specifications to enhance system functionality.
- Inbound Process Oversight:** Supervise inbound processes to guarantee the timely and precise flow of data into the system.
- Cross-functional Collaboration:** Collaborate with diverse teams to facilitate successful User Acceptance Testing (UAT) and ensure seamless project execution.

Cartel Infosystems Private Limited

Jan 2023 – Apr 2024

Software Engineer Intern

Bengaluru, Karnataka

I led the revamp of the company's website with NextJS, Tailwind, and Google APIs, elevating its functionality and user experience. Integrating SMTP technology enabled seamless handling of both inbound and outbound emails, enhancing overall communication efficiency.

Workplay Studio Pvt. Ltd.

Nov 2022 – Jan 2023

Web Development Intern

Bangalore

I made significant contributions to a JavaScript-based memory game. My responsibilities included front-end development using jQuery and maintaining the MongoDB database for efficient data storage and retrieval.
